SIR,

With reference to your No.PL:2097 of 4th Instant requesting me to point out the source from which a sum of Rs.9,000/- required for advancing as a relief measure to the Ryots of the Pavagada Taluk for sinking Irrigation Wells &c., I have the honor to state that the available sum of Rs.12,600 was already placed at the disposal of the several Deputy Commissioners as ordered in G.O.No.PL:1988-97 of 15th Ultimo and that in addition a sum of Rs.8,000 has been ordered to be advanced to Mr.Partridge in Pro: No.Pl: 1776-9 of 23rd April 1903, subsequent to my report No.4730 of 27th February last and without any further report from me in regard to the above loan.

In these circumstances, I am unable to point out any source from which this sum of Rs.9,000 may be advanced during the current year.

I have the honor to be,

Sir,

Your most obedient servant,

Comptroller.

R 5—

FROM

V. P. MADHAVA RAO, ESQ., C.I.E.,
Revenue Commissioner in Mysore.

To

H. V. NANJUNDAYYA, ESQ., M.A., M.L.,
Secretary to the Govt. of H. H. the Maharaja of Mysore,
General and Revenue Depts.

SIR,

With reference to marginally noted Government Proceedings calling for certain information regarding the season prospects of the Pavagada Taluk, I have the honor to forward herewith copy of letter No.167 dated 19th June 1903, and of its enclosures from the Deputy Commissioner, Tumkur, reporting that the condition of the Pavagada Taluk has since improved.

The Deputy Commissioner proposes to utilize sanctioned by Government in proc. no 1988-97 dt 15.5.1903, a sum of Rs. 1250/- out of the allotment of ₹4,000 towards the grant of loans for fresh irrigation wells in the Pavagada Taluk and requests an allotment of ₹9,000 for the District during the ensuing year, out of which he contemplates spending ₹5,000 in the grant of loans for Irrigation wells and Takavi advances in the Pavagada Taluk.

The allotment requested by the Deputy

Commissioner for the ensuing year may be sanctioned.

I have the honor to be

Sir,

Your most obedient servant,

Edward Wood

For Revenue Commissioner.

HG

Deputy Commissioner's office,

Tumkur District,

No. 167. Tumkur, 19th June 1903.

From

M.S. Narayena Rao Esq.

Deputy Commissioner, Tumkur District.

To

V.P. Madhava Rao Esq. C.I.E.

Revenue Commissioner in Mysore.

Sir,

With reference to your memo No. 2648 of the 25th ultimo and in continuation of my letter No. 144 dated 2nd instant re the condition of the Pavagada Taluk, I have the honor to forward copy of the First General Assistant Commissioner's letter No. 169 of the 14th instant reporting on the subject. From this it will be seen that the rains which fell about the middle of the last month were more or less general in the District and some of the tanks in the Taluk are reported to have received one to three months' supply. It is extremely gratifying to note that the condition of the Taluk has begun to improve in as much as the ryots are busy in their agricultural operations, the fears of drought have abated and the better outlook has become very hopeful.

2 That the ryots of the Taluk are cheerful about the prospects of the season is evidenced also by the fact that, towards the total demand of over Rs 116000/- for the Taluk the bulk viz, 110000/- has been easily paid up by them which has left a small balance of Rs 6000/- consisting of dry land assessment Mohaturfa &c yet to be collected. Under the authority of the Government Proceedings No. 4222-3 of the 5th May 1903, the collection of half of the wet and garden assessment due for the current year is postponed till the next year.

3 The necessity for starting relief works in the Taluk did not as I have already reported exist and there is no likelihood of such a contingency arising in the near future.

4 The Pavagada Taluk being mainly dependent on wells for its irrigation, Mr C Seshadriengar, Assistant Commissioner, in

charge of the irrigation wells Department presses the continuance of the system of granting loans for such wells. There are already in the Taluk 200 completed wells and of the 31 pending applications 16 are for deepening and repairing the old wells and 15 are for constructing new wells; but he selects 8 of the former and 9 of the latter (in all 17) . While recommending the grant of ₹s 4000/- for these he asks for an allotment, out of this, of ₹s 2000/- for making preliminary advancesbefore the end of this year, besides applying for a grant of ₹s 2000/- for advances to be made under the Takavi Rules for purchasing bullocks, seed grains, &c.

5 In this connection I would submit that out of the allotment of ₹s 4000/- sanctioned for this District in Government Proceedings No. 1988-97 of the 15th May last, a sum of ₹s 750/- will be spent immediately to complete the loans for the incomplete works of Land Improvement in other parts of the District which will leave ₹s 3250/- available for Irrigation wells to be utilized thus:-

₹s 2000/- on account of incomplete Irrigation wells.

₹s 1250/- Towards the 17 fresh applications for Irrigation wells (old and new) amounting to ₹s 4000/- recommended by the Assistant Commissioner.

6 In these circumstances I solicit sanction to an allotment of ₹s 9000/- being made for the Irrigation wells for the next official year.Out of this sum about 5000/- rupees will be required for the Pavagada Taluk alone, and 2500/- rupees for similar purpose in the other Taluks and ₹s 1500/- for Land Improvements in the District.

I have &c.,

Sd/ M.S. Narayena Rao.

Deputy Commissioner,

Tumkur District.

" Copy."

For Revenue Commissioner.

No 169

Office of the 1st General Asst Commr,
Tumkur District,
Dated, Camp Maasikere, 16th June 1903.

From C. Seshadrengar Esquire,
1st General Assistant Commissioner,
Tumkur District.

To
M. S. Narayana Rao Esquire,
Deputy Commissioner
Tumkur District.

Sir,

In acknowledging the receipt of your Memo No 1525 dated 29th May 1903 forwarding Copy of Revenue Commissioner's No 2648 dated 25th May 1903 and requesting me to report on the present Condition of the Pavagada Taluk, I have the honor to state that I have on the 5th instant submitted a report with the Amildar's Istilla giving in detail the Condition of the Taluk. From the 9th instant I have been touring in the Taluk and personally ascertaining its present Condition. A rainfall of 7 inches and 8 cents had been ganged at Pavagada and 7 inches and 68 cents at Hosakotu from the 16th May up to the 13th instant. There is no rain gauge in any of the other places in the Taluk. Hosakotu is about 18 miles from Pavagada and is situated in the North-western Corner

of the Taluk. _____ There are also Police stations at Gonnathimme, Tirumani, Bellibatta, Bettadahelaganahalli, Dudekahalli & and Hanikere. Rain gauges might be conveniently placed at each of these stations or at least one at Tirumani and the other at Bellibatta or Hanikere. By this we will have an approximate idea of rainfall not only at these stations but also in the surrounding villages.

2. The rainfall in all the villages of the Taluk was more or less general from the 16th May. Some of the tanks have received 1 to 3 months' supply of water. Ploughing and sowing operations are going on everywhere. The prospects have very much improved and the ryots are cheerful. The condition of the Taluk depressed as it was, will very much improve, should there be occasional and timely rainfall in the coming months also.

3. The Taluk is mainly dependent on Irrigation wells. Ragi which is the staple food of the ryots is generally grown under Irrigation wells and not in dry lands. Large sums of money have been advanced for the construction of these wells and for deepening them. on

previous

previous years. There are now 200 completed wells in the Taluk, for which Loan Orders have already been issued. Of these, the instalments have been fully paid up in respect of 6 wells. After the receipt of sanction, allotting funds for incomplete Irrigation wells for the current year, I have issued 6 loan orders for this Taluk. With the exception of 2 wells, which are under progress all the other wells in the Taluk have been Completed. Most of the Completed wells are working satisfactorily. In the years of insufficient rainfall and consequent drought the ryots were able to cultivate at least one-fourth of the extent assigned as "ackkat" of the wells and were able to maintain themselves and their family. These wells are considered a source of great blessing to the ryots. Successive year of bad season or the occurrence of misfortune in the family, such as, the death of its working members or mortality among bullocks tend to deteriorate the value of these wells. Instances are brought to notice in the Taluk in which wells constructed by private individuals at a large outlay have changed hands for trifling amounts or the lands on which these

wells are situated have been relinquished and are lying waste. Such instances may be few, but considering the immense good derived by the ryots by these wells, I would recommend the continuance of the grants for the Irrigation wells without regard to the occasional failures which might occur in the long course of years, during which the applicants are to repay the loans by instalments.

There are now 31 applications pending disposal in this office, 16 of which are for deepening and repairing the old wells and 15 for the construction of new wells. The loans applied for, for these wells is Rs 9500. The details of these applications are given in the statement marked A herewith sent. Out of this list I have after personal scrutiny, selected 17 wells for which loans may be granted as per details given in the list marked B, herewith sent. The applicants want Rs 4850/- for these 17 wells. A sum of Rs 4000 may be sanctioned as loan for these wells and Rs 2000/- may be allotted for the current

year

year for making preliminary advances, out of the sum of Rs 4000/- sanctioned in Government Proceedings No. Fl. 1988-97 dated 15th May 1903 for the incomplete irrigation wells, & for the current year as only Rs 2000 are required on account of incomplete Irrigation wells. Considering the present condition of the Taluk, a sum of Rs 2000/- may be sanctioned for Takavi advances for the purchase of bullocks, seed grains, &c.

5. With reference to Government Proceedings No. R 4222-3 dated 15th May 1903, Copy of which was received with the above Memo, regarding the postponement of Collection of half the revenue on wet and garden lands, I beg to state that a sum of Rs 1,10,486-1-2 has been Collected out of the total Jamabandi of Rs 1,16410-7-0 leaving a balance of Rs 5924-5-10. The balance Consists of other items of revenue such as kandayam due on dry lands, Inchutaxe, &c. Half the amount still due on wet and garden lands will be about Rs 3000/-. I have issued instructions

to the Auditor to postpone the collection of this amount till the next year as per instructions conveyed in the Proceedings.

I have &c.
